

NOTES

- The portions of the units shown as [hatched symbol] are subject to an easement for the location, maintenance, service and repair of a water meter or meters for the unit situated directly above such unit as provided in the declaration. Specifically, unit 8-1 is subject to such an easement benefiting unit 8-5, the easement area in unit 8-2 benefits unit 8-6, the easement area in unit 8-3 benefits unit 8-7 and the easement area in unit 8-4 benefits unit 8-8. The owner of the unit subject to such easement shall in no way impede access to such water meter(s) for the maintenance, repair or any other necessary activities related thereto by the owner of the benefited unit or authorized employees or agents of the Washington Suburban Sanitary Commission, its successors and assigns.
- Bold lines indicate structural walls or the walls constituting unit boundaries. Not all interior walls within units are shown hereon. "Unit" or "unit" means a three-dimensional area as described and defined in the declaration and the Act.
- Upper and lower elevations of each unit are based on W.S.S.C. datum. A typical example of the average lower elevation for a unit is 69.80'.
- A typical example of the average upper elevation for a unit is 73.90'.
- The floor area of each unit is shown in square feet. A typical example is 950.
- Each unit shown hereon is depicted by a unit number. A typical example is 8-1.
- L.C.E.-designates limited common element which are portions of the common elements reserved for the exclusive use of one or more units as shown hereon or set forth in the declaration, including, but not limited to, the balcony or patio or fireplace flue or chimney appurtenant to a unit.
- G.C.E.-designates general common elements which are defined and described in the declaration and include all of the property and improvements subject to the condominium other than the units and the limited common elements as set forth in the declaration.
